TumbleBooks Online..... is a subscription you have to pay for.

SLC Library pays for it on their website.

Type this address in the address window of your browser.

<http://www.slcolibrary.org/> Move your mouse to Kid Zone, then move it over to Tumblebooks and click on that. You can click on story books to read along with a story with pictures or you can click on tumble readables to read along with a chapter book. Audio books are just for listening, they don't show the words. Very fun sight.
